

America's Grow-a-Row

America's Grow-a-Row supplies food banks and pantries with 2 million pounds - 8 million servings - of nutritious, Jersey-fresh fruits and vegetables every year. These agencies are facing unprecedented need right now, as many people are experiencing food insecurity for the first time in their lives.

Will you help us feed our struggling neighbors with healthy fresh food through your [donation](#)? Or Click here: <https://www.tfaforms.com/4671664>

America's Grow-a-Row's response to the Covid-19 pandemic and economic crisis is to focus our energy on our core service of growing nutritious fruits and vegetables for the most vulnerable in our communities.

Now more than ever our service of providing farm-fresh produce to support strong immune systems and good health for those in need is critical and the need is great.

In order to fulfill our commitment of donating 2 million pounds, or 8 million servings, of farm-fresh produce typically harvested by our 9,000 volunteers, we hired additional seasonal farm staff at an estimated cost of \$100K to help accomplish the work done by our volunteer force.

You can help our farm team by being a Virtual Volunteer! Can you help us fulfill our goal of delivering 2 million pounds of healthy produce each year with a [donation](#)? <https://www.tfaforms.com/4671664>

Please consider helping us to fulfill our goals by making a donation that can help in the following ways:

- \$50 = 2-hour volunteer shift
- \$200 = 8-hour day
- \$1,000 = a week on the farm!
